Dear Colleague

The Polish Society of Orthopaedics and Traumatology (PTOiTr) and The European Federation of National Associations of Orthopaedics and Traumatology (EFORT) are organizing

The Orthopaedic Convention for Eastern Europe

in Poznan, Poland
during November 3-5, 2016

The event is set-up to mainly draw attention to orthopaedic surgeons from the Eastern part of Europe to share an up-to-date knowledge in musculoskeletal pathologies. Our mission is to set up the bridge between Western and Eastern Orthopaedics providing an opportunity to meet and exchange experience.

Sessions during the Convention will include invited lectures - arranged by EFORT and PTOiTr - covering the actual trends, concepts and developments, as well as problems in various areas of orthopaedic and trauma surgery. Attached, please find the preliminary programme. We also convince you to prepare poster regarding your practice, treatment results or interesting case for the specific poster session.

The fee is 150EUR and the travelling or accommodation costs are low in Poland which makes our meeting really attractive and affordable for everyone. We will do our best to make everybody feel comfortable during this exceptional event.

I really count on your support in spreading these news among your Society members and also informing us about National or local orthopaedic events organized in your country.

I hope that we all can meet in November 2016 in Poznan.

Yours Sincerely,

Leszek Romanowski & Marek Synder

Local Organising Committee, PTOiTr

Klaus-Peter Günther & Per Kjærsgaard-Andersen

Local Organising Committee, EFORT
